

Developmental Surveillance and Screening in the Medical Home

Mala Mathur, MD, MPH
Pediatrician,

Group Health Cooperative-South Central Wisconsin

Learning Objectives

- Know the difference between developmental surveillance and screening
- Understand the AAP practice guidelines for developmental surveillance and screening

"The detection of developmental disorders is an integral component of well-child care."

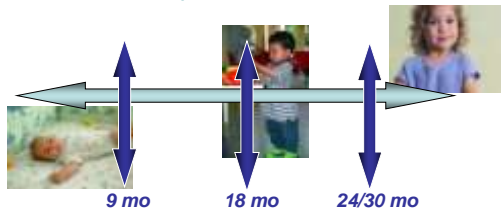

3
Pediatrics 2006;118(1):406

"The **Medical Home** is the ideal setting for developmental surveillance and screening of children and adolescents."

4
Pediatrics 2006;118(1):406

Surveillance & Screening

Developmental Surveillance

Developmental Screening

5
AAP "Implementing Developmental Screening in the Medical Home" Webinar, April 20, 2009

Surveillance

- The ongoing process of identifying children who may be at risk of delays

6
Pediatrics 2006;118(1):405-420

5 Parts of Surveillance

- Eliciting and attending to parents' concerns
- Maintaining developmental history
- Making accurate, informed observations
- Identifying risk and protective factors
- Documenting the process and findings

7
Pediatrics 2006;118(1):407-409

When to do Surveillance

- At every preventive care visit throughout childhood
- Longitudinal, continuous, and cumulative process

8
Pediatrics 2006;118(1):406-407

Screening

- The use of standardized tools to support and refine that identified risk

9
Pediatrics 2006;118(1):405-420

When to do Screening

- 9 month
- 18 month
- 30 (or 24) month visits
- *and* when surveillance demonstrates risk

10
Pediatrics 2006;118(1):409-414

Why use a Validated Tool

- Detection rate for developmental delays
 - Using observation/checklist: 30%
 - Using validated screening tool: 70-80%

11
Pediatrics in Review 2000;21:272-280

Ask a Question

Viewing online?

- Click on the envelope above
- Question emailed to Training Team
- Questions answered by expert on topic
 - Response within 2-3 weeks

Viewing at a live training?

- Organizer shares questions with Training Team
